

Our Mission

We believe all our Care Recipients deserve to be treated like they are part of our own family, which is why we go through rigorous process of selecting the best staff for each assignment. The selection process of choosing the best person for your loved one goes far beyond just the credentials and the fundamentals of assistance of daily living. We only hire staffs (CNAs, GNAs, LPNs, and RNs) that have demonstrated the ability and compassion to treat your loved ones as if they were theirs. This approach helps minimize turnover, increase stability, and the family and care recipient are much more satisfied with the selected aide or care giver. When you combine the aforementioned with training, orientation, RN supervision, and regular customer surveys you have the best practices in place.

J3 Healthcare Services also specializes in professional healthcare staffing to **all agencies, commercial hospitals, rehabilitation centers, and assisted living facilities as needed.** Our dedication to customer service, our extensive and rigorous pre-screening process, and our commitment to staffing excellent personnel is what we do best.

J3 Healthcare Services uses its operational knowledge and industry best practices to provide innovative and excellent staffing solutions for clients on a **small, medium and large scale arrangement** covering a wide range of positions and services with low risk and cost. Our complete solution to staffing focuses on Nursing (RNs, LPNs, CNAs, and GNAs) as well as other non-medical disciplines.
